

**REMARKS**

Claim 32 has been amended to recite that the backsheet is fluid impervious, and not fluid pervious, thereby correcting a typographical error introduced in an earlier Amendment filed 21 December 2004. In the "Remarks" accompanying the 21 December 2004 Amendment, the backsheet was correctly described as "fluid impervious" (See paragraph traversing pp 9-10). The fluid impervious backsheet is also supported in the specification, p. 16 lines 14-16 and p. 18 lines 9-11. Also, it is known in the art that backsheets for absorbent articles are typically fluid impervious.

No new matter has been added. Entry of the amendment is respectfully requested.

Respectfully submitted,
